Bendable SMD3535 RGB LED Strip

Specification

Item No.:	STB-RGB-2815
Light Source:	SMD3535
LED quantity:	84led/m
Input Voltage:	DC12V
Power Consumption:	15W/m
Color:	Addressable RGB
Dimensions:	5000mm*6mm
Waterproof Rate:	IP20

Product Detail Description

1) High grade bendable led strip

www.suntechleds.com sales@suntechleds.com

This S-shaped LED strip is flexible and bendable so any shape or letter can be formed in minutes.

2) Z shape color changing strip lights

This is an addressable RGB strip light, you can choose different colors and modes with K1000C controller.

3) Cuttable and connectable:

The strip light is easy to cut. It cuts every 3 LEDs (3.5cm) along the cutting mark without damaging the rest.

4) Long life and high stability:

Epistar LED chip, 3 years warranty

5) Self-adhesive:

Fitted with an easy-to-install original 3M adhesive tape with excellent adhesion.

Application:

It can be used for Halo effect signage, Back-lit 3D letters, Staircases, Archways, Emergency exits
